

# TRANSFORMATIONAL LEARNING AND MT ADVANCED OPPORTUNITIES SPRING WEBINAR SERIES

1

Welcome to the OPI's spring Transformational Learning and Montana Advanced Opportunities series. Our goals are to provide assistance from districts already implementing transformational learning strategies, build supportive networks of professionals around the state, and learn how to enhance advanced opportunities and CTE programs for all students.

## Part 1:

### Monday, February 22nd at 9am

Part 1 of the Transformational Learning series was previously recorded and accessible through the link below. Plevna Superintendent Nick Shumacher, Assistant Superintendent Don Christman of Lockwood, and Alberston's Principal Mica Clarkston shared their districts' journeys through planning and implementation of Transformational Learning strategies. This webinar provides valuable guidance and insight for districts wishing to apply for the Transformational Learning Grant.

## Part 2:

### Monday, March 29th at 9am

Is personalized learning a buzz phrase or is it here to stay? While personalized and transformational learning go hand-in-hand, envisioning this new methodology of teaching and learning can be challenging. This session provides specific examples of how schools can personalize learning for their students from grades K-12.

2

## Part 3:

### Monday, April 26nd at 9am

This session centers on Advanced Opportunities. What are Advanced Opportunities and how are they provided for Montana students? Furthermore, what does the profile of a high school graduate look like in today's world? Learn how schools, both state-wide and nationally, are shifting their thinking to best prepare their students for post-secondary experiences.

3

## Part 4:

### Monday, May 17th at 9am

Let's NETWORK! This session will facilitate brainstorming opportunities centered on unique learning experiences for all students. We will use collaboration to strive for student choice, increase rigor, prepare students for an unknown future, and develop positive relationships. Be prepared to use Zoom to break into groups with peers and share your story!
